1. When the genesis release and transfer pursuant to Proc D1 has been completed, the ILN team_issues a second instruction to the ILN multi signatory team, to release and distribute the amount in the "50% contract distribution wallet", to the receive address's, of the contracting lien holders; This instruction includes a transfer date, the contracting lien holders receive address's and amounts, and a build up to the totalling amount to be transferred out of that wallet;

Ilien Team
Instruct
transfers from
50% contract
wallet, to lien
holder wallets

50% contract distribution wallet - Tranche X Transfer Instruction:

Includes the following:

Transfer date;
Transfer amounts and receive address's
Build up to the 50% amount;

Ilien multi-sig Implements the transfers on the required date

<u>2.</u> The ilien team initiates the 50% contract distribution wallet transfers, in the appropriate amounts to the public address's of the contracting lien holder wallets; The genesis multi sig team, each confirms their own multisig approvals, for these transfers, pursuant to the received instruction;

<u>3.</u> APRES TRANSFER: The ilien team satisfies themselves and verifies, that the correct amounts have been transferred to the contracting lien holder wallets; Pursuant to the conversion contracts, each contract and lien notice is stamped settled receipted, and closed, and specific receipts and a forgiveness certificate are generated, as proofs to validate the ILN tranche value created;

4. The ilien team publishes the contractual settlement and receipting proofs to the blockchain or a publishing website, and issues specific copies of same, pursuant to the conversion contract obligations; Thereby satisfying all ILN team obligations undertaken, & closing off this specific numbered tranche conversion procedure;

Publish To Blockchain or Website & issue to 3rd Parties
