

WELCOME NOTICE

Ilien Team;

e-address: info@ilien.io;

Notice issue Date: **11th November 2019**;

Notice issue time: **11:11**;

For Publication;

Hi and welcome to one and all;

This welcome notice is issued, as the “community public” button has been pressed on the ilien website www.ilien.io, and pursuant to the ilien whitepaper, the website will remain in beta mode for minor modifications until in and around the 21st December 2019;

The project concept is to introduce to all participants: a coin/token that is immutable, debt-free and abundant; Thus please peruse the website – its layout and design is “a less is more” basis; The whitepaper outlines the entirety of the current ilien project, and outlines the source of ilien coin value; An ilien coin is contractually set at lien conversion to the price of 1g of gold, thus making its value immutable with the price of gold, and thereby stabilising the value of ILN within any market; The target audience for the project, is not just commercial lien holders, it is everyone who desires to experience abundance;

Currently 3 tranches of converted liens have been put into circulation (ILN 3m+ coins) on the ilien blockchain, where 50% of coin was issued to the respective lien holders after conversion, 25% is issued out to wallet holders in various types of bonus's, 15% is allocated for issue to good cause project applications, 5% is allocated for issue to foreign friendly cryptos, and 5% is allocated to administration costs;

To experience abundance, one should open an ilien wallet (listed on VerusCoin Agama Wallet) to participate in various tranche bonus's or apply for funding good cause projects that align with the ilien project ethos; No bonus's have been issued to date, and the plan is to release the Tranche 1 to 3 bonus', soon after Tranche 4s conversion; The 3 types of bonus are detailed in the white paper and the website; Bonus 1, is an equal share of 10% of the conversions for wallets with 1 ILN or more; Bonus 2, is an equal share of 10% of the conversions for wallets with 50 ILN or more; Bonus 3, is a pro rata share of 5% of the conversions for the top 500 wallets of ILN coin; No wallet = no bonus! Based on the bonus

WELCOME NOTICE

figures available for issue from Tranche 1 to 3, 300k+ ILN coins = 10%; Thus if there were 30k ILN wallets with 1ILN each wallet would receive 10 ILN; Apply the same logic for the other types of bonus's; As we are rolling 3 tranches of 3 types of bonus's out in one in hit after Tranche 4, the time is now to open your wallets and to get ILN coins into your wallets by trading or purchase; Coin can be purchased from a third party by a link in the website, and some good cause projects have linked up with this third party to sell some of their allocated ILN to fund the fiat side of their projects;

There are a number of project targets that need to be addressed in the short term, and we briefly outline the general order they will follow:

- Tweak the website and move out of beta mode;
- Apply to have ilien listed on atomicdex, the komodoplatfrom designed decentralised (cross chain) exchange (DEX); There is no plan to apply to list on centralised exchanges (CEX), due to non sensical global registration restrictions and requirements;
- Liaise with VerusCoin on minor ilien wallet modifications;
- Convert Tranche 4 liens and put into circulation;
- Issue out the Tranche 1 to 3 bonus's to wallet holders that hold required number of coins – this will require liaison with komodoplatfrom initially;
- Liaise with global debit card providers to get ilien listed on their debit card;
- Long term – an agreed and seamless handover from current ilien team to master node teams after Tranche 9;

There are a number of mini projects within the main ilien project, and are all projects in their own right, and when they were achieved, they were identified as “standing stones”, as they stand on their own merit! The main standing stones achieved to date:

- Ilien has its own secure & tested blockchain in operation (komodo platform secure asset chain - relying also on security of bitcoin chain) - max circulation 10bn ILN; The ilien blockchain is a secure komodoplatfrom asset chain, and comes with all the benefits of being in the komodoplatfrom family
- Ilien listed as coin on the secure Komodo/VerusCoin Agama wallet;
- The 1st foreign friendly coin bonus from Tranche 1 was given to foreign friendly crypto - Komodoplatfrom (in spring 2019);

WELCOME NOTICE

- 3 tranches of liens contractually converted allowing the issuing of 3m+ ILN debt free coins into community circulation; ILN debt free value contractually tethered on conversion in each tranche, to “debt” price of 1g of Gold;
- Circa 10 Good Cause funding’s for good causes on foot of approved applications, issued to date;
- Whitepaper taken out of draft in Nov 2019, and into rev 0;
- Website live and in beta mode, and a CRM type application system is being tested on the website, for lien and good cause applications – please bear with us, during the beta test phase;
- Investor Portal for ILN Coin Purchase: Third party agent/portal is selling/exchanging ILN coin thru medium of gold rate at <https://www.woolstangray.eu/ilien-crypto-coin-ilien-io/> - the link is @ “buy ilien” on www.ilien.io;

In closing we would like to issue a big thank you on behalf of the community, for the far sighted vision of the lien holders, who have participated to date; The community also thank the komodoplatform team and for their vision in the design and provision of their blockchain platform service, and in particular we thank the VerusCoin team for the communities use of their Agama wallet; The chainmakers team deserve great credit for their patience in dealing with blockchain neophytes in the setting up of the blockchain, as do DesignOfDreams the website designers; We also acknowledge and thank the many contributors – past and present on the ilien project journey, and trust that we have generally delivered as discussed;

Lastly to you the reader – whether you are researching the ilien project or are currently part of the community – it is important to acknowledge, that the scarcity financial models and the debt based/backed financial models of the past are cyclical, and that both by design, manipulate and create the boom bust high and lows that manipulate and control our lives; Most of the trials in our lives are manmade, and can be attributed to either scarcity or debt based/backed models; It is obviously time for those aware, to step out of these destructive cycles, in to an alternative self-sustaining debt free model; We believe that the ilien project has created and implements this initial first step, towards a simpler, a better, a debt free and an abundant present and future, and invite you to experience it for your selves; Thank you for taking the time to read this welcome notice, and further project information is in the whitepaper, and the “information sources” section in the ilien.io website;

WELCOME NOTICE

As it is now close to the traditional season of good will, why not share the information on ilien.io and within the whitepaper, and assist your nearest and dearest in opening ilien wallets, and share a coin or two with them - so they can share and experience bonus's and immutable, debt free coin, and abundance for themselves; And remember, no wallet = no bonus!

Link to the website is: <https://www.ilien.io/>

Thank you to all for feedback, support and assistance to date;

We stand in truth and we stand in honour;

Acting for and on behalf of the ilien team, on behalf of the ilien community

All living men and women, and all rights reserved;

Addendum to this Welcome Notice (date 2019-12-01):

Uptake of ilien coin purchase through the third party website is very encouraging, despite no marketing to date - typical purchase is either 1+ ILN coin or 50+ ILN coin, obviously to avail of first and/or the second type of bonus's;
